

## CHICAGO STRIKE IS

Something to Keep You Guessing for a Few Days to Come.

Yesterday There Were Strong Hopes of Settlement by Arbitration. Today Hope Is Dim, and Mild Violence Reigns. But Few Cars Are Running.

Chicago, Nov. 17.—Mayor Carter Harrison today acting under a recommendation of the city council, has made an attempt to mediate in the differences between the Chicago City Railway Co. and its striking employees. The mayor despatched a letter by special messenger to President Hamilton of the Street Railway Co. asking that Mr. Hamilton and such representatives of the company, as Mr. Hamilton might desire, meet with the mayor and a company of eight aldermen this evening. At this meeting, the mayor will endeavor to discover means by which the strike can be brought to a quick end. The mayor said he had no idea what would be the outcome of the meeting but he hoped for good results. The resolution of the council under which the mayor acted today concluded as follows: "His honor the mayor use his best endeavors either in union with influential citizens or with members of this council to secure a submission to arbitration of the questions at issue with the Chicago City Railway Co. and its striking employees."

President Hamilton of the street railway company, replied this afternoon accepting the invitation to meet Mayor Harrison, and the committee of aldermen.

**The Morning Situation**  
Chicago, Nov. 17.—While the city council last night was engaged in a battle at times bitter over the role of the police to the city railway strike and while the aldermen were trying to place policemen on the streets to be explained by the corporation counsel, and while finally the council was voting its confidence in the mayor's violence became general along the Westworth line.

One non-union man who ventured into the company's barns was set upon presumably by pickets and given a chance to leave town.

He hesitated in his answer and was taken up, thrown in a box car, and the door locked. The car was part of a departing freight train. He was carried away with his wounds not healed. A wagon load of bedding intended for the barn barracks was situated with oil and burned at the thirty-ninth street crossing.

A shot was fired into the Englewood police station from the darkness, the bullet narrowly missing a dog's head.

The Cottage Grove cable system was put in operation this morning with five trains under police protection and the running of the Westworth line was continued.

One thousand policemen were distributed along Cottage Grove avenue at 400 on Westworth.

The Cottage Grove avenue line of the Chicago City Railway, was the

scene of much of today's strike activity. This line which parallels the Westworth avenue line, a mile to the eastward, has been entirely tied up since the inception of the strike of car men, except for the operation of mail cars. The line traverses the business district by way of Wabash avenue, entering Cottage Grove avenue at 22nd street and penetrates an extensive residential portion of the city which has no other transportation facility of easy access.

The Westworth avenue service was continued on practically the same schedule as obtained yesterday. Twenty-five cars were operated on a five-minute schedule beginning at 8:40 a. m.

A number of pistol shots near the barns at 33rd street and Cottage Grove avenue started the men housed within and for a short time the strike breakers believed that an attack was being made upon their stronghold. The shots proved to have been fired by men who brought two wagon loads of supplies into the barns, and who had been molested by pickets in an attempt to block the delivery.

When the two wagons were within half a block of the barns, pickets halted the drivers, and demanded that the teams turn around and drive back. The drivers immediately opened fire when threats were made and quickly drove to the barn.

After unloading the provisions, they returned to the company's headquarters, followed by a bicycle brigade of union pickets.

Five trains left the barns near 33rd street and Cottage Grove avenue for the downtown loop at 9:45, a heavy police guard attending each train. The policemen in each case were protected from possible injury by heavy wire screens while a force of nearly 1,000 patrolmen guarded the line and kept the crowds moving. Wagons were hurried along and kept off the street so far as possible.

The cars on the Cottage Grove Avenue line traversed the entire route to the center of the city without difficulty. As a result the street railway officials claimed practically to have mastered the strike on the second trunk line, the first to be brought under control being the Westworth avenue electric line, which has been handling a limited number of cars for several days. As yet no cars have been run after dark and passenger traffic has been extremely light.

Perfect order on the part of the strikers and the street crowds marked the resumption of service on Cottage Grove avenue. Supt. Weather wax announced that five trains would be continued on this street throughout the day, and the service would be

## LUCKY JIM HAS STRUCK IT AGIN.

Thousand Barrel Well Has Turned All Eyes Toward the Kansas Field. It Is Reece and Hazlett's Earhart No. 2.

Independence, Kan. Nov. 17.—Last Wednesday the Earhart No. 2, owned by Reece and Hazlett, has been making 1,000 barrels every 24 hours. Near this property is the Banks No. 1, Schoenberg No. 1-2, the property of the Elcho Oil Co., and the Booth No. 1, owned by Booth. These four wells, with Earhart No. 2 are putting 2,000 barrels into the line each day, and they seem to indicate a very rich pool, but from surrounding development, it is not considered extensive. Llama producers are interested in several leases nearby.

## TWO STEAMERS AGROUND CLOSE DETROIT RIVER.

Detroit, Mich., Nov. 17.—The tugboat crossing at the mouth of the Detroit river, is completely blocked by the steamers W. L. Brown, which is aground on the east bank of the channel, and the steamship Currie, aground on the west bank. United States Engineer Dixon says that the recent high winds have lowered the water in the channel, and that within 24 hours, the water will have risen sufficiently to float both the boats. The wind has fallen.

## RUMOR HAS PHEL AS THE NEXT BISHOP.

Columbus, Nov. 17.—There is a report here among Roman Catholic church people that Rev. Nicholas Phehl, of St. Peter's church, Cleveland, will be the next bishop of Columbus, to be named by the pope on Dec. 7 next. At the Episcopal residence, it is said that nothing definite will be known as to the appointment until made at Rome.

## AFTER YEAR OF LIBERTY

Escaped, Convict Charged With Counterfeiting and Murder Is Captured.

Zanesville, O., Nov. 17.—Len Stevens, who escaped from the Belmont county jail about a year and a half ago, and for whose arrest a reward of \$1,000 was offered by the Belmont county officials, was arrested here yesterday morning, in company with his step-brother, "Moody" Devine. The charge against Stevens and Devine is passing counterfeit money. Moody Devine is a brother of Barney Devine, who escaped from the Belmont county jail with Stevens, both being confined there on charges of perjury.

Barney Devine was captured here a year ago, returned to Belmont county and convicted of perjury, and is now serving a sentence in the Ohio penitentiary. Stevens and Devine were

originally tried and convicted in Belmont county for murder in the first degree for the alleged murder of little Clarence Warwick on Christmas eve, 1900, at Somerton. A new trial was granted by the circuit court, and the Belmont county officials, fearful of the result of a second trial and anxious to hold the men, preferred perjury charges against the two. It was while they were awaiting trial on this charge that they escaped.

Soon after their escape the bank at Somerton was blown and robbed of a sum variously estimated at from \$500 to \$5,000.

## STEAMER BURNED.

Detroit, Mich., Nov. 17.—The wooden steamer Minnesota, 207 feet in length, and owned by Jas. Corrigan, of Cleveland, burned today in the St. Clair river off Walpole Island. The fire broke out in the engine room, about 9 o'clock and after the crew found themselves unable to extinguish it, they anchored the steamer in the river, and took to the yawl boat. The steamer will probably become a total loss.

## PANAMA FLAG FLEW

At Head of Steamer Bearing Agents Sent by the New Republic.

They Declined to Talk Until They Had Received the Latest Intelligence From Washington. After Being Advised of Situation They Will Go to Capitol.

New York, Nov. 17.—From the forenoon, head of the steamer City of Washington, which arrived today from Colon, flew the flag of the Republic of Panama, and on board were the special commissioners sent by the new republic to the United States. The commissioners are Dr. Manuel E. Amador and Federico Boyd, and with them are Carlos Arosemena, secretary, and Archibald Boyd, attaché.

The City of Washington was in the center of the trouble at Colon, and received on board a large number of women and children because of the general fear of a clash between the insurrectionists and the Colombian troops. There were 500 of these troops in Colon, who demanded transportation by rail to Panama but the railroad authorities refused to take them. They marched down to the railroad terminal, and were stopped by United States marines from the United States cruiser Nashville.

The marines had run flat cars laden with cotton bales in a front of the depot and filled the windows with bales of cotton and other bales forming barricades which were manned by Americans.

After some parley the troops went down on the pier to the British royal mail steamer Atrato to embark for Cartagena. The commanding officers of the troops had in the meantime

gone to Panama, and they were without commanders.

Col. Black of the marines, taking advantage of the fact that the troops had all passed down the pier, changed the cotton bales barricades until they blocked the pier and refused to allow the troops to come back to shore. A fund of \$8,000 was collected and the troops were sent passage prepaid by the Atrato to Cartagena.

For two days, November 4 and 5, quiet prevailed in Colon and many of the foreign residents sought shelter with their families on the City of Washington.

The commissioners on arrival did not know the exact status, and declined to talk until they had received the latest intelligence from Washington. They could not say whether they would go direct to Washington or not. Dr. Manuel Echeverria of New York met the commissioners at quarantine.

## Gave Salute.

Panama, Nov. 17.—The U. S. battleship Marblehead in Panama bay saluted the flag of the new republic of Panama at 5 o'clock this morning with twenty-one guns.

The French consul at Panama has notified the Junta that he will open official relations with the government of Panama, saying Foreign Minister Delcasse had informed him that France will formally recognize the new republic.

## EFFORTS TO BREAK CREDIT

Of a Pennsylvania Trust Company Is Due to Malicious Persons.

Reading, Pa., Nov. 17.—For some time past confidence among the depositors of the Pennsylvania Trust Co. has been shaken by rumors that the institution was in a sound financial condition and that the directors were fully responsible for the safety of the depositor's money. In a letter to the funds on hand the company received \$200,000 today from Philadelphia. The officers ascribe the efforts to break the credit of the institution to malicious persons.

## BAD ALTOONA BILL PAYS THE PENALTY.

District Judge Sends Him Up for Five Years for Complicity in the Robbery of an Ohio Postoffice.

Cleveland, O., Nov. 17.—Wm. Daly, otherwise known as Altoona Bill, and a man found asleep in the post office and compelled them to witness the blowing of the safe. The burglar then left Garrettsville on a freight train but was intercepted at Bedford by a posse and a battle followed in which Daly was killed while Brady was captured and is now in the penitentiary. Daly escaped at that time, but was later apprehended. Before sentence was pronounced today Daly dramatically declared his innocence.

## COLOMBIA IS NOTIFIED BY

Panamanian Commission, Her Assurances of Concessions Are Too Late.

Colon, Nov. 17.—The Panamanian commission composed of Senors Arias, Morales and Arosemena which left Panama yesterday to meet the peace commission from the department of Bolivar, boarded the Mayflower today, and held a short conference with the Colombians, who only represent the department of Bolivar and the governor of that department and who have no credentials from Bogota. The Colombians asked the Panamanians if they would return to the

public of Colombia if assured concessions and consideration in the passage of a canal treaty. The Panamanians replied that they would not return to the republic of Colombia, and declared the assurances came too late as Panama's position was so advantageous and strong that they could not see any reason for consideration.

The Colombians will return to Savannah, this afternoon on the British steamer Trent. They will not land at Colon but will remain on the Mayflower until 3 p. m. when they will be transferred to the Trent.

## TROUBLE ON BECAUSE OF

Street Brawl Between Koreans and Japanese. Officers Ordered to Seoul.

Cologne, Nov. 17.—It appears that there is some friction at Seoul in consequence of a street brawl between Koreans and Japanese. According to a despatch to the Cologne Gazette from Seoul the Japanese minister there has demanded that the chiefs of the police and gendarmarie be censured and ordered to proceed to the legation of Japan and apologize for insults to Japanese subjects, and he threatens, in the event of their recalcitrance, to send Japanese guards to assist the police in maintaining order.

## TARIFF AND CHEAP LABOR KILLED THEM.

Brantford, Ont., Nov. 17.—The Bailey Cutler Co. has closed its doors. Insufficient tariff protection is given as the cause of suspension, the firm being unable to compete with American prices and the cheap labor production from England and Germany. The invested capital was \$450,000.

## WE ASSUME CONTROL OF CUBAN COALING STATION.

Santiago, Cuba, Nov. 17.—The U. S. cruiser Baltimore arrived here this morning from Guantanamo, where she officially assumed sovereignty in the name of the United States over the naval station there. The Baltimore will leave this port for Kingston, Jamaica, and then she will go to Bahia-Honda, Cuba, which is to be made a coaling station of the United States.

## DAUGHTER OF ARTHUR WAS MARRIED TODAY.

Albany, N. Y., Nov. 17.—Miss Ellen Herndon Arthur, of this city, daughter of the late President Chester Allen Arthur, was married today to Charles A. Pinkerton of New York, at St. Peter's Protestant Episcopal church, by the Rt. Rev. Henry C. Potter, bishop of the diocese of New York, assisted by the Rev. Dr. Walton W. Battershall, rector of St. Peter's. No wedding of recent years in this city had exceeded that of Miss Arthur in social importance or in the wide interest occasioned by the event. The church was decorated with an unusual profusion of palms and flowers. The invited guests completely filled the edifice and outside a great crowd lined both sides of State street. Miss Arthur was given away by her brother, Chester Alan Arthur. The bride was attended by Miss Elizabeth Maston, of New York, her cousin. The best man was Arthur V. Morton of New York city.

# WOULD MAKE RIGID RULES

For Government of Yellow Stone Park.  
9300 Saw It in 1903.

Washington, Nov. 17.—Lieutenant Col. Joseph G. Ward, acting superintendent of the Yosemite National Park, in his annual report recommends the protection and preservation of the game in the forest reserves, bordering on the National Park's and the reservations. The return to the old Indian custom of systematically burning over portions of the forest of the Park every autumn to minimize fire dangers; amendment of the rules and regulations so as explicitly to forbid the location of mines, water and power claims on government lands and any surveying, without the permission of the proper authorities, that the government take steps to obtain immediate possession of all patented lands in the forest reserve as well as in the park; that future acting superintendents be given the position for three years, if the exigencies of the military service permit; and that the park be made a United States court district and that a resident commissioner be appointed. The report estimates that the total number of tourists who visited the park in the season of 1903 was 9,500. The report says that the inadvisability of having the state grant within the National Park is being discussed and expresses the belief that the United States could obtain possession of the Yosemite valley from California, if the matter was properly brought before the state authorities.

## HUMPHREY UPHOLDS TRANSPORT SERVICE.

Favors Furnishing First Class Accommodations to Enlisted Men, and Shows Figures That Service Is an Economy.

Washington, Nov. 17.—"It was thought proper, in an official report, to refer to the army transport service as 'a most costly luxury,'" says C. F. Humphrey, quarter master general of the army, in his annual report to the secretary of war. Considering actual figures and facts, I do not know in what respect the service can be looked upon as a luxury, unless reference is made to the excellence of the enlisted men's accommodation. "If it be a luxury to furnish our enlisted men with the class of accommodations now provided on all of the army transports, when I favor the continuance of that luxury. "In my opinion, the transport service needs no defense whatever, and no excuse is offered for it by the department charged with its operation. I for one, don't claim that there is any 'memorable military necessity' for its continuance, but I submit that the service is unquestionably a very valuable and economical military convenience." Much of the report is devoted to the discussion of the transports' service. The total difference in favor of transport service for a year is placed at \$2,248,029 in the report. Inter island

## THE WEATHER.

Washington, Nov. 17.—For Ohio,  
cold wave tonight and Wednesday,  
with fair in central and south; snow  
drifts in north portion; high north-  
west winds.

The Ohio is to be amended. That  
means that Harding's salary is to be  
increased.

The formation of one hundred new  
National banks in Ohio, since March  
15, 1900. If memory serves correctly,  
that was about the time the "National  
currency" idea had its birth.

Herrick is wondering where they  
all live. Since his successful cam-  
paign for governor, he has "placed on  
file" more applications for office than  
there are republican voters in Ohio.

When those four poor fellows were  
blown to death on Dr. Hartman's  
farm, yesterday, the maker of Peruina  
probably lost an opportunity to se-  
cure four glowing testimonials for his  
medicine.

The democratic minority in con-  
gress will be able to convince the peo-  
ple of this country, even if it fails to  
convert the majority side of the  
house, that the Dingley tariff schedule  
is not too sacred to be changed.

England is not going to have a clinch  
on tariff discussion. Democratic lead-  
ers in congress have opened the debate  
this side of the Atlantic, and the cam-  
paign of education will continue for  
one year at least.

Producers of crude oil who are hold-  
ing it in storage expecting an advance  
may have disappointment handed  
them in the form of a reduction in  
price, notwithstanding the prevailing  
opinion that market conditions are  
bullish.

Newspapers that publish menus of  
"Meals for Tomorrow" one day in ad-  
vance of tomorrow, are of course en-  
terprising, but they would be greater  
benefactors were they to quietly ad-  
vise members of their own fraternity  
not what to eat, but how to get some-  
thing to eat for tomorrow.

Gov. Turbin, of Indiana, shies a lit-  
tle bit at the announcement of his  
name for the vice presidency. He is  
not quite confident of his ability to  
carry Kentucky without Taylor's vote,  
and the way things are now arranged  
the governor of Indiana just simply  
won't allow Taylor to go across the  
river.

A political prediction—Blick will  
succeed Hanna, Cox will follow For-  
aker. Harding will be chosen for  
governor, and Hanna will step into  
Hoo-ver's presidential shoes. This  
of course all hinges on the continued  
refutation of republicans in power by  
the people.

For Eberhart Hubbard and Alexan-  
der Dowie must be affiliates, they are  
so different. Fra has turned down a  
proffered gift of one million dollars  
to assist the Hoo-ver Industrial Uni-  
versity, because to accept it, would  
destroy the very principles on which  
his community is built. In contra-  
distinction to this method of proceed-  
ure is that of Dowie's who takes  
everything in sight, and then de-  
mands more. They should join forces.  
The coalition would undoubtedly pro-  
duce a new species of morality, and  
financial ethics.

## RUMOR AND LAW.

Up to this time, rumors of graft  
in this city, are confined to police  
circles. In Nebraska, it is different.  
There, a grand jury, sitting in Omaha,  
has indicted a United States senator,  
one Charles H. McNichols, with accept-  
ing a bribe, and Jacob Fisher, of Har-  
rington, Nebraska, with giving District  
bribe, in return for which he re-  
ceived the appointment as postmaster.  
Outside the moral turpitude  
and the black eye it gives the sys-  
tem prevailing in this country, it  
goes even farther, as it forever fastens  
upon the people a superstitious con-  
nection with McNichols. The indictments were  
given McNichols \$1,300. Had the  
sum been any amount in which  
thirteen did not figure, the gentlemen  
might have escaped action at the law's  
hand.

## MRS. CARTER WAS SHOCKED

When Man Jumped to Stage From  
Audience and Served Her  
With Papers.

New York, Nov. 17.—A zealous law-  
yer's clerk has caused excitement at  
Belasco's theatre by leaping to the  
stage and into a box to serve a paper  
upon manager Carter, giving notice for  
a suit for an injunction restraining  
the Belasco manager from producing  
an old play in this city.

The curtain had just been raised on  
the first act when the clerk, elbowing  
his way through a box occupied by  
several ladies and their escort, leaped  
to the stage. Mrs. Carter was about  
to begin her lines when the docu-  
ments were thrust into her hands.  
For a moment she appeared greatly  
frightened by the intrusion, and the  
clerk, driven back from the wings by  
stage hands, was compelled to leave  
by the way he came. He hurried to  
the street. Only a few persons in the  
audience saw the papers and realized  
what had caused the incident and it  
was some time before the excitement  
died out.

The suit is said to arise from a dis-  
pute with another manager, and part  
owner as to the rights for the play in  
this city during the season.

## CONFERENCE ON RAILS HAS BEEN POSTPONED.

New York, Nov. 17.—The confer-  
ence which was scheduled to be held  
today between the representatives of  
the steel companies and the trunk  
line officials to discuss freight rates,  
on steel and steel products, was not  
held according to information given  
out at the Trunk Line officials, but it  
will take place on Thursday, when re-  
presentatives of all the steel com-  
panies probably will be present. It is  
understood that rates on steel for ex-  
port will be decided at this meeting.

You will miss it if you don't attend  
the shoe sale at 548 south Main street,  
Boose building. 29-31

## CLOSED FOR REPAIRS.

Ireton, Ia., Nov. 17.—The bank of  
Ireton, a private institution with H.  
F. McKeever as cashier, has closed its  
doors. A notice reading "Closed for  
liquidation" was posted on the doors  
and further statement was given  
out. The failure of the Sheldon  
State bank is said to have been re-  
sponsible for the closing here.

## CASHIER IS SHORT IN HIS ACCOUNTS.

Washington, D. C., Nov. 17.—A  
special to the Evening Star from Port-  
smouth, Va., says: "John H. Down-  
ing, cashier of the Portsmouth Sav-  
ings bank, is short in his accounts,  
and the board of directors are in pos-  
session of his confession to defalcations  
extending over a comparatively re-  
cent period. There has been no  
run on the bank. Downing was bond-  
ed by a Baltimore company for \$5,000.

## LABOR FEDERATION OPPOSED TO SMOOT.

Washington, Nov. 17.—The Ameri-  
can Federation of Labor, is endeavor-  
ing to prevent the appointment of  
Senator Smoot of Utah, to a position  
on the Immigration committee. The  
association has not protested against  
the senator holding his seat, but is  
opposing vigorously his application  
for a committee appointment which  
they claim would give him an oppor-  
tunity to promote the immigration of  
Mormons from Europe.

# WARM TIMES IN CONGRESS.

## Cuban Bill Brings Champ Clark to His Feet with Battle Cries.

Washington, Nov. 17.—The senate  
was in open session today for only 20  
minutes, and the greater part of that  
time was consumed in the introduction  
of bills, and the presentation of peti-  
tions. Most of the bills were for pen-  
sions and the bulk of the petitions re-  
lated to the case of Senator Smoot,  
of Utah. The senate at 12:20 went  
into executive session. At 12:40 p.  
m., the senate adjourned.

## In Lower House.

Washington, Nov. 17.—When the  
house convened today, Mr. Fowler (N.  
J.) and Mr. Brundage (Ark.) were  
sworn in after which the house went  
into committee of the whole, and re-  
sumed consideration of the Cuban bill.

Mr. Knapp, republican (N. Y.) was  
the first speaker today.  
Mr. Knapp said that above the com-  
mercial reasons why the treaty should  
be made effective, justice to Cuba, for  
the prosperity of which the United  
States must be responsible, demanded  
favorable action on the pending mea-  
sure.

Mr. Clark, democrat (Mo.) pre-  
faced his remarks by saying he be-

## LIFE SENTENCE IS AFFIRMED.

Columbus, O., Nov. 17.—Life sen-  
tence of Marsh Lindsey, one of the  
"Celery King" Johnson murderers, in  
Wyandot Co., was today affirmed by  
the supreme court. This holds to be  
without merit the contention that a

man tried for a homicide committed  
in the act of robbery must be either  
convicted of first degree murder or ac-  
quitted.

Chief Justice Burke and Justice  
Crew dissented.

## TRACK NOTES.

Baltimore, Md., Nov. 17.—At the an-  
nual meeting of the B. & O. R. R. of-  
ficials the present board of directors  
was re-elected as follows: Edward  
H. Bacon, John K. Cowen, John P.  
Green, Edward H. Harriman, James  
McGraw, S. J. Prevost, Samuel Rea,  
Norman B. Ream, Jacob B. Schiff,  
James Speyer, Charles Steele and  
James Stillman.

## Pay For What You Eat.

The Pennsylvania put the a la carte  
service into effect yesterday on trains  
6 and 9, the former leaving for the  
east from Lima at 7:25 a. m. and the  
latter for the west at 2:37 p. m. The  
service includes only breakfast, and  
luncheon at noon, and the regular  
charge of \$1 for dinner will prevail on  
both trains. If the experiment is  
found to be popular, and made to pay,  
after a thorough test, the change from  
the straight charge of \$1 for dining  
room service will be adopted perma-  
nently.

## Unpleasant Side of It.

The present weather is bad on the  
railroads and trains on all the lines  
are not running on schedule time.  
The tracks are slippery, making ac-  
cidents more probable, but the collision  
on the Pennsylvania is the only one of  
consequence to happen in this vicinity.  
No. 9, west bound Pennsylvania pas-  
senger, was laid out at Crestline yes-  
terday and a special train was made  
up there to forward the passengers.

## Men Who Rise to High Places.

The recent selection of Howard El-  
liott to be president of the Northern  
Pacific railroad again calls attention  
to the fact that in the selection of  
presidential material for railroads  
long established precedent is being  
discarded, and the man who starts  
at the bottom now has a better op-  
portunity to reach the top than ever  
before. Mr. Elliott began as a rod-  
man in 1880, and worked his way up  
until he attracted the attention of J. J.  
Hill, of the Great Northern. W. H.  
Newman, president of the New York  
Central started with the Texas Pacific  
as a station agent. A. J. Cassatt,  
of the Pennsylvania, started as a rod-  
man of that company. Albert J. Earl-  
ing, of the Chicago, Milwaukee and St.  
Paul, started as a telegraph operator  
of the road of which he is now presi-  
dent. Samuel Felton, of the Chicago  
and Alton, began on the Panhandle.  
Horace G. Hurt, of the Union Pacific,  
was employed first as a rodman in the  
construction of the Vandalia. Milton  
H. Smith, of the Louisville and Nash-  
ville, began at a telegraph instrument,  
and E. B. Underwood, president of  
the Erie, began as a railroad brake-  
man. Numerous other men could be  
mentioned who started at the bottom  
and have made great successes as rail-  
road men.

## EXPENSIVE BITTER ROOT.

St. Louis, Nov. 17.—The second an-  
nual meeting of the American Apple  
Growers Congress was opened here to-  
day for a two days session with  
about 150 members present from vari-  
ous parts of the country. Bitter root  
which caused a loss of \$10,000,000 to  
applegrowers in 1900, was the prin-  
cipal subject of discussion.

The little folks love Dr. Wood's Nor-  
way Pine Syrup. Pleasant to take,

## CHICAGO STRIKE IS

(Continued from page 1.)

established by tomorrow.

On the Westworth avenue line to-  
day a heavy couch dropped in front of  
a car by two men suddenly running in  
front of the car almost caused a  
smash up at West 41st street. The  
car moving at high rate of speed,  
backed the couch and hurled it to one  
side, smashing it to splinters. The  
couch was picked up from in front of  
a hardware store by the two men, who  
ran directly in front of the car and  
quickly dropping the couch, scamper-  
ed off. Switches were found to be  
spiked all the way from west 77th to  
west 30th streets. It was necessary  
to make frequent stops to close them  
and then a huge stump of a tree had  
to be removed from the track at 31st  
street and a rock at 33rd street. Occa-  
sionally a shot was fired at a car as  
it passed or bricks or pieces of iron  
were sent flying through windows, but  
no person is known to have been in-  
jured.

While the company was still making  
elaborate arrangements for a siege  
and while the report was circulated  
that the management had informed a  
representative of the Chicago Em-  
ployer's Association that the company  
could "fight all winter, if necessary,"  
the Chicago Federation of Labor sent  
a telegram to Governor Yates, asking  
him to use his good offices to bring  
about arbitration.

The following reply was received,  
signed by the governor:

"Your telegram received asking me  
to endeavor to bring about arbitration  
of the strike in Chicago. Although  
favoring arbitration of all controver-  
sies, I have no power to compel arbi-  
tration. I have, however, asked the  
state board of arbitration, to renew its  
tender of service.

wages. It is not expected that any

# ROYAL Baking Powder

Makes the food more wholesome, and more  
nutritious to both brain and muscle

I have given the Training Table  
to the Cornell University for five  
years very satisfactorily, and am  
certain that much of the success  
has depended upon the quality of  
articles used. In baking powder.  
I use the Royal, for it is undoubt-  
edly the best. I have occasionally  
given others a trial, and have dem-  
onstrated to my satisfaction that  
there is but one always reliable,  
always making perfect, delicious  
and wholesome food, — The Old  
Reliable "Royal."

## SMALLPOX.

## A Case Discovered on East Spring Street Today.

A case of smallpox was discovered  
today, on east Spring street, the pa-  
tient being an oil well driller who has  
been rooming in the Keil building on  
east Spring street, between Main and  
Union streets. The driller came into  
the city Sunday night, and being ill,  
called upon a local physician who  
prescribed for him. This morning the  
man sent for the physician, and the  
case was found to be a fully developed  
one of smallpox. The building is under  
quarantine.  
The Board of Health held a special  
meeting this afternoon, at 3 o'clock,  
to take steps to prevent a spreading of  
the disease.  
R. K. Floeter left this morning for  
Indianapolis.

## NEEDS

The Services of a  
Guardian

Say the Heirs

Of Samuel Zurmehly of  
Shawnee Township.

Petition for the Appointment  
Filed in Probate Court  
This Morning.

Jury Secured in Young Case at the  
Close of Yesterday's Session  
and the Trial Is Now  
Under Way.

Application was filed this morning  
in probate court for the appointment  
of a guardian for Samuel Zurmehly,  
an aged and well-known farmer living  
in Shawnee township. The application  
is made by Mrs. Mary E. Reed, a  
daughter, and is concurred in by the  
other children, the family consisting  
of three sons and two daughters.

Mr. Zurmehly is 82 years of age,  
and according to an inventory filed  
with the petition, has about \$4,000 in  
money and notes and a farm of 160  
acres valued at \$8,000. The court is  
informed that, owing to Mr. Zurmehly's  
advanced age, he has lost the  
ability of ably managing his affairs  
and for this reason a guardian is ap-  
pointed for Judge Miller has set the  
case for hearing on November 23.

## Wants His Share.

George Boon has filed a petition  
asking for the partition of 106 acres  
of land in Jackson township, of which  
he claims a one-sixth interest as an  
heir of the late John Boon. John Boon,  
who has been a tenant in common  
with the plaintiff is entitled to the  
other five-sixths. Petition was filed  
by Attorney Benjamin Meek, of Upper  
Merion.

## Meeting of Auditors.

Auditor Feltz left this morning for  
Lombard to attend the annual meet-  
ing of the auditors of the state, which  
will be in session there today.

## A Jury Secured.

The jury in the case of the state vs.  
Amos Young, was not secured until  
before the hour for adjournment  
of court yesterday evening, when the  
oath was administered to the follow-  
ing: W. H. Hoover, Auglaize town-  
ship; M. M. Keltner, Lima; Robert  
Dulholland, Lafayette; C. H. Bowers,  
Seneca; G. H. John, Elida; Benj.  
Linn, Delphos; John East, Lima; R.  
L. Goble, Bath township; J. C. Lusk,  
Lima; M. M. Hammack, Lima; Gib-  
son P. Dilline, Lima; Dennis Ryan,  
Lima.

Witnesses for the state were called  
and sworn this morning, and Prosecu-  
tor Klinger summoned as the first wit-  
ness. Mr. McCorkle, one of the ex-  
perts who made an examination of the  
books of the Allen County Building  
Loan Association. Mr. McCorkle is  
resident of Warren, O., and for four  
years, has been one of the examiners  
employed by the state to examine  
building and loan associations.

It developed at the opening of the  
case that much time would be con-  
sumed in the argument of legal points  
and technicalities, and the defense  
was particularly alive to their rights  
in the examination of Mr. McCorkle,  
who occupied the witness chair dur-  
ing the entire morning session, and  
was called again after the noon re-  
cess.

## Decisions of Interest.

An important decision has been  
rendered by the Medina Circuit court  
according to the Weekly Law Bulle-  
tin, relating to the powers of county  
commissioners in roads. The court  
holds that they have no authority to  
restrain persons from obstructing  
ownership roads, their powers being  
limited to state and county roads.  
Jurisdiction of township roads is vest-  
ed in the township trustees exclusive-  
ly.

Another question cited by the bul-  
letin is whether the pumping of an  
oil well on Sunday is a work of neces-  
sity, within the meaning of the Sun-  
day law, and it is held to be a ques-  
tion for the jury, where the evidence  
is conflicting as to the injury which  
will be caused by not pumping it.

## In Closed Session.

The circuit court judges returned  
to Lima, yesterday for the purpose of  
considering the various cases presen-  
ted at the session last week, and it will  
require several days of close work to  
arrive at decisions. It is possible  
that at least a portion of the cases  
will be disposed of Thursday.

cord's office of a decree of divorce

ence on "The Dangers of Mormonism,"  
by Dr. Elliott of New York, followed  
by further treatment of the subject  
by Mrs. Weed of Chicago.

ment of the press reported what had  
been done in that line during the year  
and urged all officers to give atten-  
tion to supplying numbers of their do-  
ings to the newspapers. The report  
of the credentials committee was pre-  
sented showing the membership of the

JUSTICE DAY  
IN PULLMAN

Cases Wherein Tennessee Is Plain-  
tiff Reverses Decision of  
Lower Court.

Washington, D. C., Nov. 17.—Justice  
Day of the U. S. supreme court today  
delivered the opinion of the court in  
the case of the Comptroller Adams  
State of Tennessee vs. the Pullman  
Palace Car company. The case per-  
tains to the Tennessee state laws of  
1887 and 1889, providing for the tax-  
ation of sleeping car companies doing  
business in the state. The court up-  
held the validity of the law of 1889,  
taxing the company for the passen-  
gers carried solely within the state  
limits.

The law of 1887, taxing the cars  
operated within the state was held to  
be a burden in interstate commerce  
and therefore unconstitutional. The  
case was appealed from the U. S. cir-  
cuit court for the middle district of  
Tennessee, and the opinion of that  
court was reversed on the point relat-  
ing to the law of 1889.

member of the inter oceanic commit-  
tee has asked to be relieved from  
duties on the committee because of ill  
health. The report that Senator  
Morgan will withdraw from the com-  
mittee when he is deposed from the  
chairmanship which it has been de-  
cided shall go to Senator Hanna, is  
not credited by either republicans or  
democrats.

BIG BOND ISSUE  
WILL BE FLOATED.

New York, Nov. 17.—It is now plan-  
ned to form a syndicate to under-  
write the recently authorized issue  
of \$50,000,000 Lake Shore bonds. Of  
the bonds, \$40,000,000 will be pur-  
chased by J. P. Morgan & Co., and  
\$10,000,000 will be retained in the

Lake Shore treasury. The portion  
taken by Morgan & Co., will be is-  
sued in exchange to holders of Read-  
ing notes, on a basis still to be de-  
termined. It is expected that a portion  
of the issue will be used in the pur-  
chase of another railroad property.

POSTMASTER  
GIVES BOND

Upon Learning of His Indictment. Sen-  
ator Dietrich Immune During  
the Session.

Omaha, Neb., Nov. 17.—The indict-  
ment returned last evening by the  
federal grand jury against United  
States Senator Charles H. Dietrich,  
and Postmaster Jacob Fisher of Hast-  
ings, Nebraska, on charges of bribery  
and conspiracy in connection with  
the appointment of the latter as post-  
master, was a subject of extreme in-  
terest in Omaha. At the Federal  
building small groups of government  
officials, employees and others gather-  
ed to discuss the subject. United  
States District Attorney Summers,  
who has conducted the case for the  
government, refused to talk or even  
see reporters.

Postmaster Jacob Fisher, upon  
learning of his indictment by the fed-  
eral grand jury today, appeared in  
Judge Munger's court. The formal-  
ties of arrest being completed, Fisher  
gave a bond for \$1,000 for his appear-  
ance in court and was released.

At the Federal building it was stat-  
ed that a United States senator is im-  
mune from arrest on charges of the  
nature of those named in the indict-  
ment, while congress is in session. As  
a consequence Senator Dietrich will  
not be apprehended at this time. He  
will be notified of his indictment, how-  
ever, and it is expected he will appear  
in court when he can do so, conven-  
iently.

## CAN PRACTICE IN OHIO.

Columbus, Ohio, Nov. 17.—The  
supreme court today rendered a de-  
cision which is taken to mean that  
Christian Science may be practised in  
Ohio. Some time ago, a family by the  
name of Bishop, in Hamilton, O., was

tried and acquitted on a charge of  
manslaughter, for having permitted a  
child to die without having medical  
attendance. The state carried the  
case up on exception and today, the  
supreme court overruled the excep-  
tions.

## COLD WAVE IS GENERAL.

Chicago, Nov. 17.—A cold wave  
the first of the season is general  
through the west today, the tempera-  
ture in Illinois, Iowa, Kansas, Nebras-  
ka, Missouri and neighboring states

being but a little above zero. The  
mercury in most cases dropped 30 to  
40 degrees over night. Snow and some  
delay of trains is reported from west-  
ern Kansas.

## Special Sale of Hosiery.

Now this sale is remarkable in many particulars; but chiefly  
because it names unusually advantageous prices in the very face  
of a rising wholesale market. The advanced cost of cotton and  
wool, of which you all have read in the papers, has sent hosiery  
and underwear prices skyrocketing. How then are we able to  
name such low prices now? Easily explained: we ordered be-  
fore the rise and the manufacturers were forced to deliver to us  
at the old figures. However, never mind the whys and the where-  
fores; but look out for your own best interests by taking advan-  
tage of these offerings at the earliest possible moment.

# CLEVER WORK BY INSPECTOR.

Disguised as a Milkman He Secured the Arrest of a Gang of Thieves.

London, Nov. 17.—Four men have been arrested in connection with the stealing of jewelry worth \$50,000 from the auction rooms of Knight, Frank & Rutley, in Conduit street, a month ago.

It was by a clever scheme on the part of the famous detective chief, Inspector Drew, that the men were tracked down simultaneously and arrested in various parts of the north of London. Traced by their finger prints, the men were discovered two weeks ago and, without their knowing it, they have been shadowed day and night. Before making the arrests Inspector Drew wanted, if possible, to trace the missing jewels but failed. Then Mr. Drew decided on a daring coup.

Early in the morning there might have been seen walking toward the house of each suspect a milkman who wore the usual glazed hat and carried the usual money pouch and milk bucket with cans round the side.

His cry rang out lustily as he came down the street. When at the door of the house he knocked loudly, the door was opened, the milkman stepped inside and the professional air at once left him as he raised his hand above his head.

At this signal four men came hurrying from hiding places near by. All were detectives, the milkman's disguise having been adopted for the purpose of securing admittance.

Together they mounted the stairs to the bedroom of the man they wanted, and in each case the man was found in bed. The prisoners were quickly bundled off to the nearest station.

Jewelry, including gems taken out of their setting, were discovered to the value of several pounds.

# WIFE WAS DYING, HUSBAND SUICIDED.

London, O. Nov. 17.—Because he compared of his wife's recovery from a bad fever, August Garau, aged 63, drowned himself by jumping into the west branch of the Nimshtillen creek this morning. His wife expired two hours later, upon hearing of his tragic death. There were no witnesses to Garau's act. His body was found shortly after 8 o'clock, half submerged under the west Tuscarora street bridge. He left his home, No. 1006 west Seventh street, at midnight, upon being told that the sickness was much against his wife's recovery. He was not missed until 10 o'clock this morning, when a search was instituted. When the clothing of the dead man was searched, a letter addressed to Mrs. Ida McKinley, was found in the coat pocket, ready for mailing. Its contents were as follows:

Dear Mrs. McKinley: It is with a trembling hand that I take the liberty of making an appeal to you. All my fortune was misfortune and failure.

# UTILITY BOXES ARE VERY POPULAR.

She Was a Clever Woman Who Having Home Where Space Was Limited Designed the Cozy Fitment for Use.

She was a clever woman who designed a utility box. Having a home where space was limited and closets few she set about to find some cozy fitment for her extra belongings.

At first a box presented itself to her mind where her dressy waist could be laid out full length without being rumpled. It must be strong and durable of make. So a shoe box occurred to her as just the thing. But it must be covered in an attractive and pleasing manner, and made to suit the prevailing scheme of her dainty bedroom.

She found one to her liking, had a carpenter place off all the rough places, tighten the nails that held the boards together, and fit the cover with hinges so that after the box was finished they could be easily screened off.

To preserve the outside as well as the inside and give a smooth foundation to the box she tacked a gray velvet wadding on the whole. For the inside a simple sateen of a solid color in a warm gray was chosen. It was smoothly put on, care being taken that the corners were closely tacked.

The selection for the outside was a heavy ribbed English chintz in a decidedly flowery pattern of leaves and pink roses on a rich cream background. These gay colors suited her pink and white bedroom. After the outside was made fast to the wood by some pretty gilt nails, closely grouped together, the sides were finished with handsome gilt handles and the cover screwed firmly on.

As a home-maker's first attempt, it was a charming success, and served an excellent purpose for the disposal of dress waists, light weight wraps or articles of a nature needing special care.

Utility boxes have made a stand for themselves, and are looked upon as being as useful as dressing glasses and mirrors. The most expensive sort are of leather and have something of the appearance of an old-time chest. Others are made of suede in tones of any dark rich color and are covered with soft, shagreened cotton textures. It is only when employing a thinner fabric that they should be padded, because the rough places in the box are sure to irritate and cut away the cloth.

An artistic utility box is made of suede leather firmly tacked on all sides with small oxidized nails. The top cover of the box has an extra layer of padding to give it a round appearance, and is decorated by the pyrophen with an etching of corn cobs and leaves. The inside is lined with a soft brown cotton flannel smoothly laid on and tacked securely at each corner. As a useful adornment, each side has oxidized handles, while at all four corners at the bottom of the box are fitted rollers, making it easily

movable. This box is used for the holding of photographs, special papers and manuscripts, and all paraphernalia that pertains to a literary man's den.

The utility box for the nursery is on a much larger scale and as a rule it is made in the form of a couch. It is long and roomy, having an extra emergency bed, and is, therefore, furnished with a first-class mattress. The whole is first covered with a strong interlining of canvas, and then finished with an outside covering of velvet or velour. If preferred, a jute or even cretonne can be used, provided the material is of the best quality. Usually, the top is finished with a deep ruffle, which, when lifted up, displays a generous amount of room for children's dresses, suits of clothes, underwear or any articles that require a stow-away place.

The box should match the prevailing scheme of the room or be in some well chosen complementary tone. To make it a restful and charming appointment pillows and cushions can be distributed, piled up here and there, tucking a cozy couch by day, as well as a comfortable bed by night.

For bedrooms, there are other smaller boxes in square oblong forms, which can be tucked away in some retired corner, and are handy places for belongings necessary for making a toilette. Evening dresses, ribbon stocks, and other dainty dressings can there find a place. Many of these boxes are divided into compartments, one of which is large enough for handkerchiefs and collars, another for belts and fans.

Some utility boxes form a pretty window seat, on which pillows are grouped, in making one of this kind figured denim is exceedingly decorative. If the colorings are well selected.

# ATCHISON GLOBE SIGHTS.

It never makes you feel any better to give up.

Women know they are not angels, but they encourage the idea.

We suppose that that which the devil gives, is also classed as hot air.

Of course you know that very few people can make a suggestion to you.

What has become of the old-fashioned man who greased his boots every fall?

Of course a cur dog cannot be blamed for his breeding but he is a cur dog just the same.

Some people just naturally hate you; above all things, don't try to act smart in their presence.

Look around and stop kicking. There is always somebody in sight worse off than you are.

What we would like to know is if the man who has buried two wives, hopes to meet both of them in heaven.

Tears are becoming to no one over sixteen, and then care should be taken to dam them up before the nose turns red.

When a long-nosed man kisses a long-nosed woman, somehow we feel that neither got anywhere near a real good time.

Sometimes, when a woman gets her husband's life insurance, we can't help thinking that she has doubly and trebly earned it.

We have often wondered what a preacher says when his wife asks him if he loved any woman before her. Tell the truth?

When you have been a guest so long that the hostess quits apologizing for the spots in the table cloth, your welcome is worn out.

So many streets are torn up because of improvements, that lanterns wearing their winter underwear are a common sight after night.

There never was such a run in the serving of guests at a church social, that the women in charge complained of the way they had to work.

The fashion of wearing the hair in a mop at the back of the neck has made its appearance. In short, the high roll on top has slipped back, and is about to fall off.

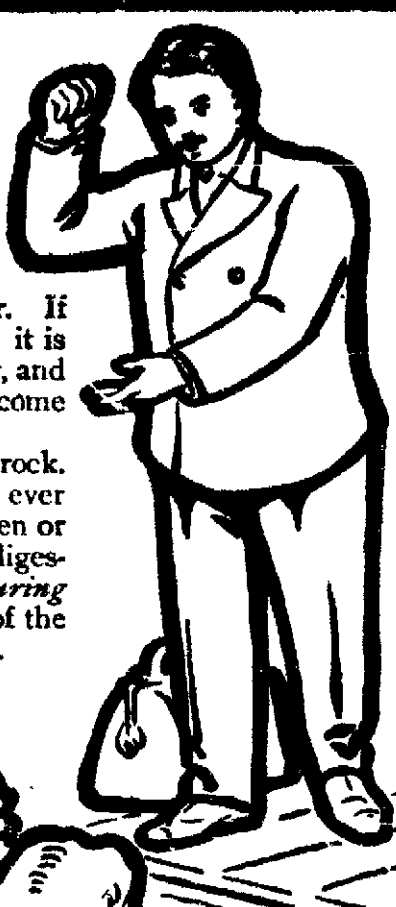

The women who really "assist" when a woman gives a party, are those the guests do not see, and whose

# HERE HE IS AGAIN!

Once more the Romoc man expounds the Theories of Health. This is What He Says:

SEE here, good people, I have only a few words to say in making my appearance again this year. If you need my advice, you probably need it badly, and it is simply this: start in with Romoc, the sooner the better, and fortify yourself against the ills that are bound to come during the next few months.

Remember that Romoc is the medicine made from a rock. There is nothing in this whole, wide world that I have ever found in my travels, or that any of you have ever seen or heard of, that will so effectually cure Rheumatism, Indigestion, Nervousness, and all Blood Troubles, and besides curing these ills, that will absolutely make you well of any of the many derangements that are a result of such affections.

I want to remind you of another fact relating to Romoc, and that is, Romoc is Nature's own remedy. It combines all the virtues found in every one of the great mineral springs of the world. There is not a single drop of alcohol in Romoc, nor are there any poisons or other deleterious substances, that you find the ingenuity of man adds to many so-called health-giving medicines to their detriment, and the danger of the people who use them.

**Ask for ROMOC LAXATIVE TABLETS—SURE CURE FOR CONSTIPATION.**

We have investigated Romoc. We know that all that is said by the Romoc man pertaining to this wonderful remedy is true, and we will refund to anyone the price of the remedy not satisfied with the results obtained. Remember, Romoc is guaranteed and sold by

names do not appear in the newspaper accounts of the event.

When a woman gives a lot of parties in succession to pay off her social obligations it's like doing the dishes, before she's fairly rested, it's time to do it all over again.

We notice that while girl children are given old fashioned names like Dorcas, no mother becomes so old fashioned as to name Joshua out of the dust pile for her son.

When we read the obituaries published in country newspapers, we are filled with regret that such good and charming people live and pass away, and it was never our lot to know them.

Now that another marriage engagement has been broken, the girl confesses that the only times the man said he was fond of her was when she cornered him, and he had to say it or be brutal.

By the time the men learn to pronounce a word used by the women, they begin using another. Several of the men who were able to pronounce cravenette, are now confronted with de solle.

There is a new fad which teaches that perfect health is the result of living as close to nature as possible. We suppose that a woman may be said to be a follower who puts celery on the table without washing it.

We give this advice annually, and regard it as good as when we first gave it twenty-one years ago: For cleaning the mud off cloths, there is nothing that does the work better or more cheerfully than a corn cob.

After a woman who is making calls has been ushered into a parlor where the lady of the house is entertaining her card club, not knowing the club is there, she understands what the brakemen mean by a head-end collision.

It is easy to tell that Richard Harding Davis is smart: the newspaper men are so jealous of him. They print stories telling what a cad he is, but the facts are, he is very much of a gentleman. That's another reason no is hated.

A letter comes to this office which complains that a certain young girl writes to a certain young man living south of town, and that he never gets the letters. "Certain parties" in whose care the letters are sent, are accused. The man thins?

"Yesterday I saw Mrs. Newell Todd taking care of one of her grandchildren. I hereby give notice that I will not take care of my grandchildren. I have raised one set of children, and do not intend to begin on another. I also give notice that I would be a poor father-in-law, and a poor stepfather."

**DARING TRIO OF AERONAUTS**

Will Attempt to Cross the Atlantic Ocean in a Balloon.

Three daring Frenchmen, E. Reclus, an eminent geographer; A. Berget, professor of physics at the Sorbonne, and the well-known aeronaut, L. Capazza, have, after long researches and profound studies, just disclosed a plan wherein audacity vies with science. The plan consists of no less an undertaking than to cross the Atlantic ocean in a balloon against currents particularly distinct and powerful says a special correspondent in the Columbus Press.

M. Capazza will be at the head of this hazardous task. He is a man whose aeronautical science equals his bravery and coolness. I was sent to interview him regarding the aims, the obstacles, the dangers, the organization of this colossal enterprise, and the date of the setting off of the intrepid navigators.

"We want," he said, "to reflect glory upon the work of the American hydrographer and naval officer, Captain Maury, to whom we owe the sea chart of the gulf stream, and to popularize the existence of great ocean currents, the notion of which has saved to the commercial world more than fifty thousand of millions."

"What route will you follow in crossing the Atlantic?"

"The card of the mariner's compass of the Atlantic records three distinct regions north of the equator, but their boundaries change with the seasons. The only route to follow in going from Europe to America in a balloon is north by east. The winds which blow from this point of the compass form in the high sea of Morocco, a current sometimes 15 degrees broad and extend for several months uninterrupted beyond the Antilles as far as the peninsula of Yucatan and the Gulf of Mexico. So, it will be necessary to start from a point southwest of Europe in order to reach the north coast of South America."

"Where will the starting take place?"

"We studied for our ascension three headlands: Cape Roca, near Lisbon; the Island of Madeira, and the Island of Palma. We determined the route an inert body would follow in line of direction, but capable of holding itself at a constant height on the sea level, and the time of year when there is the minimum of chance of being thrown out of the fixed zone."

"To determine the lee-lurch zone, one must take into consideration the length of the journey, the making land at a point whence a return home will not be too difficult, and the absence of perturbing local winds. We eliminate the coast of Central America as being too far away, and subject to local winds from the great number of surrounding lands. But we consider it a satisfactory result if the aeronaut lands at a point on the coast north of South America, between the headland of Gallinas on the west and Para on the east, the island of Trinidad being the most convenient place one could imagine for landing, on account of its screen-like position opposite the coast of Venezuela, and because it is inhabited."

**NOTED CRIMINAL A MISSION WORKER.**

Indianapolis Ind., Nov. 17.—From a desperate crook to a worker in the city missions, is the record of Michael Silk, whose anniversary of conversion was celebrated yesterday.

About four years ago, three drug-store clerks in Indianapolis were held up at the point of revolvers and one of the highwaymen was captured. He was identified as Michael Silk, a notorious criminal. He had a police and penitentiary record that would fill a volume, and was convicted and sent to the penitentiary at Michigan City. Nothing more was heard of him until a year ago, when Rev. Wm. H. Wheeler, of the Rescue Mission, received a letter from Silk, saying that his term of imprisonment was about ended, and that he was tired of a criminal life. After his discharge, he came to Indianapolis, and it was at the altar of the Rescue Mission, that he first knelt to confess his sins. He immediately became a diligent Christian worker, and, later, was taken into the Methodist church as a full-fledged member.

Silk never missed the mission meetings, conducted religious services in hospitals on the street, at the mission, and wherever he was assigned. A few weeks ago he spoke from the pulpit of the Meridian street Methodist church, the high-toned congregation of the city, and many came forward at the close of the service to congratulate him.

At the anniversary celebration, Silk spoke at length on his criminal career, extending over 25 years. He said he asked no sympathy and needed none, blaming no one but himself for his years of crime. He does not believe in total depravity, and thinks every criminal can be saved if talked to kindly and made to believe that society is open to him.

The lad has a large three cornered cut and ugly bruises on his forehead and his nose was broken. Dr. Steiner was summoned and dressed the wounds, but the little fellow has as yet been unable to give an intelligent account of how the accident occurred. The injury is not necessarily of a serious nature but there will be a scar as an ever present remembrance of it.

While Washing to Disinfect  
Themselves.**

Lebanon, Ohio, Nov. 17. — Charles Gray and George Ross, colored boys, respectively 17 and 15 years, prisoners in the county jail, were probably fatally burned last night as the result of a bath in soapy water and gasoline given them by the jail attendants as a disinfectant. Their clothes were also scrubbed with the solution. In some manner their clothes caught fire and before aid reached them the boys were so badly burned that they will likely die.

Gray and Ross were recently sentenced on the charge of robbing freight cars.

### SMALL SHOW OF HACKNEYS

**Attributed to Success of American  
Breeders in Developing  
Trotting Stock.**

New York, Nov. 17.—Hackneys occupied positions of prominence at the horse show at Madison Square Garden, today, the judging of ten classes of this once favorite breed coming first on the days program. Entries in the Hackney classes, which have been steadily diminishing in number for several years were very few, the highest number in any class being four, the falling off being due largely it is explained, to the production by American breeders from trotting stock of a harness horse having all the showy qualities of the Hackney and in addition more speed and endurance.
